

EduCore — see it running

Live screenshots from the demo environment: 3 campuses · 1,200 students · a full year of attendance, fees and exams.

Own the numbers — the owner's dashboard, consolidated across campuses

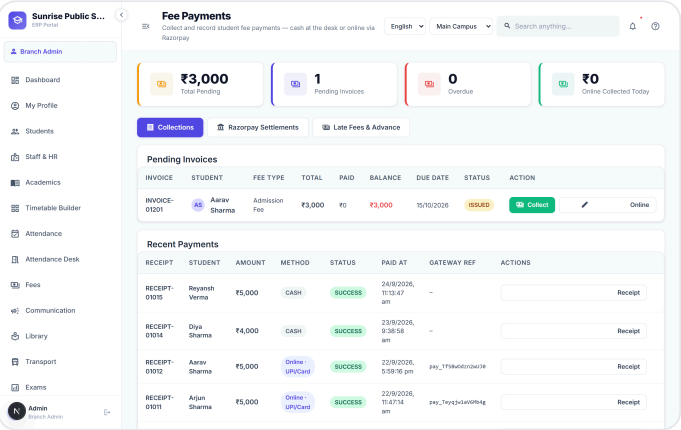

Group dashboard Enrollment, attendance % and collection per campus — no Excel compiling.

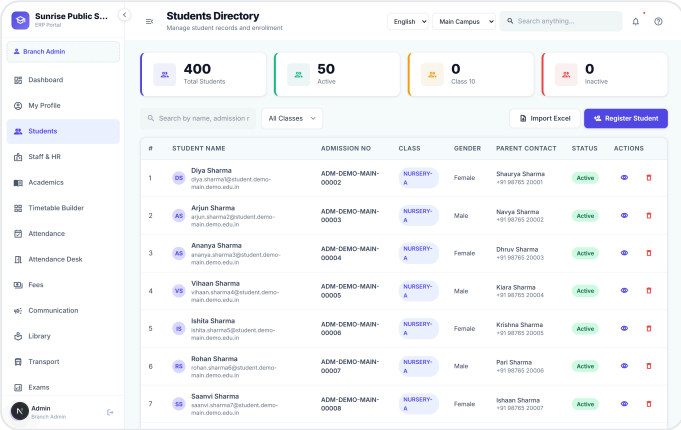

Financial reports Fee funnel, expense vs income, day-wise collection.

Collect every rupee — cash or UPI, one receipt trail

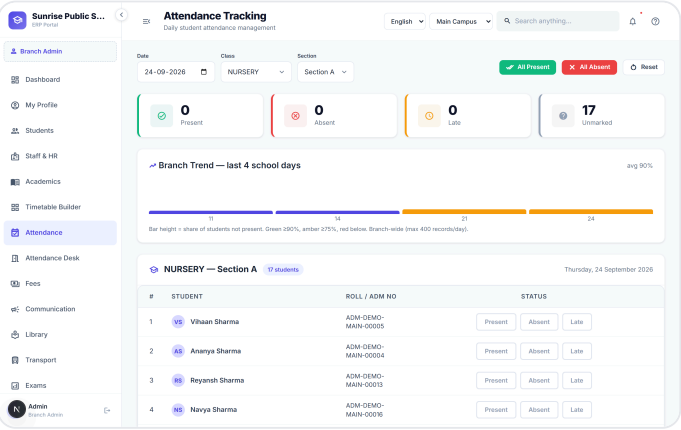

Fee desk with online collection Razorpay checkout, automatic reconciliation, printable receipts.

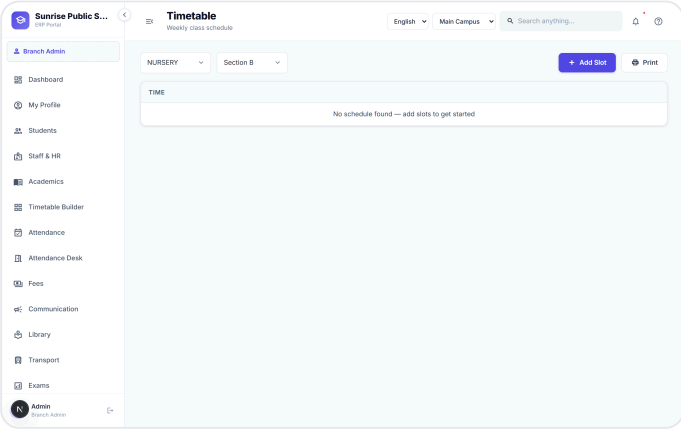

1,200-student records Search, filter, class-wise views across all branches.

Run the day — 30-second attendance, clash-free timetables

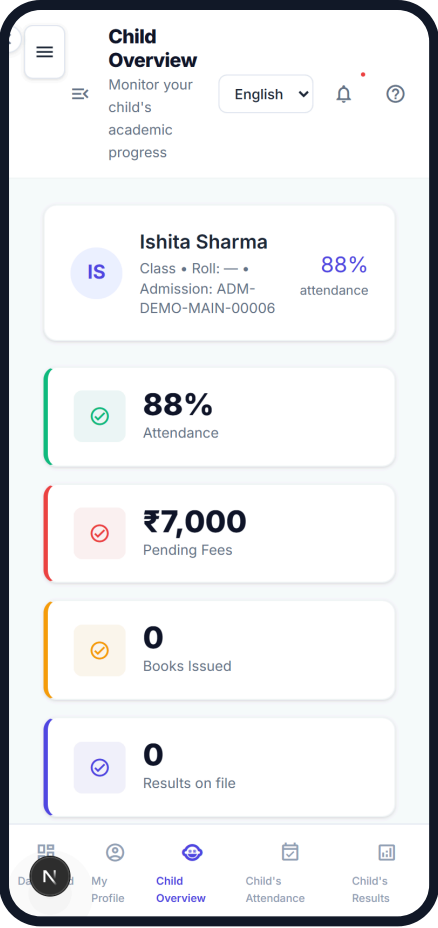

Attendance Mark in seconds; absences push to parents instantly.

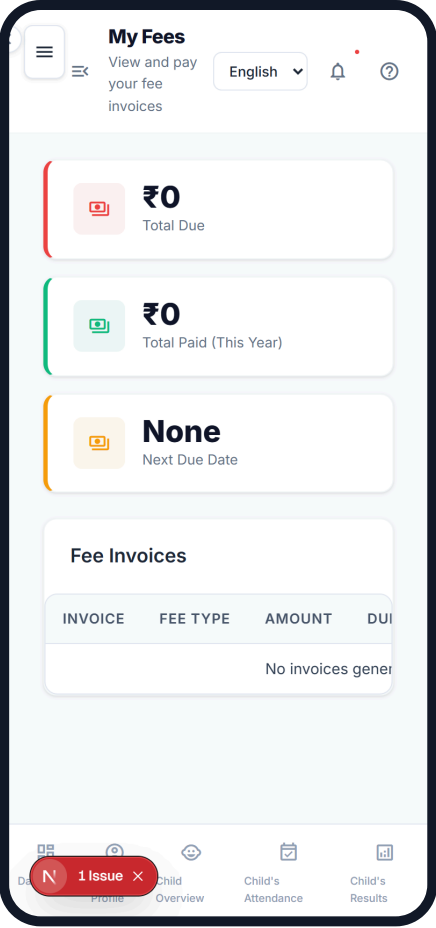

Timetable builder Drag-and-drop with live clash detection (teacher double-booking caught).

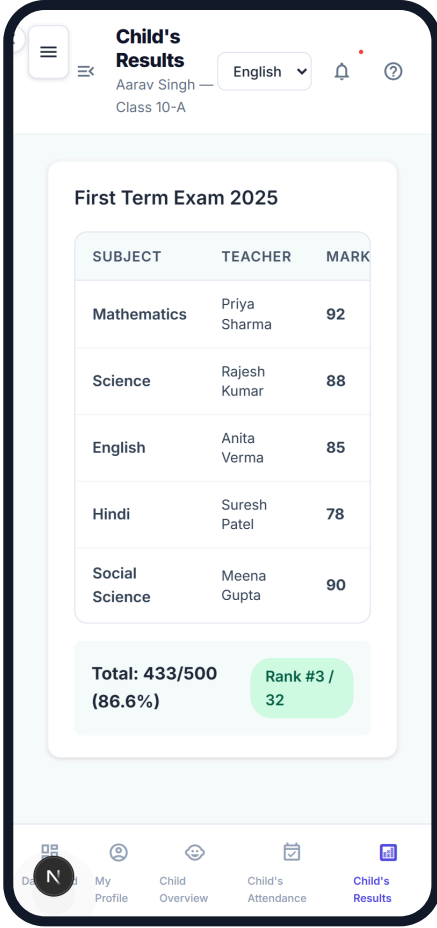

In every parent's pocket — the mobile app

Child overview: attendance, dues, results

Fees: pay online, receipt in-app

Results: published report cards

From **₹150 per student / year** · onboarding includes data import + staff training

Full details in the one-pager · book a 20-min live demo · 20 minutes, your data shape
